To Northern Presbytery Active Ministers
Re: Supervision and Supervisors

Greetings

By now you would have received a communication from PCANZ and revised requirements regarding who can be a supervisor of active Ministers in Presbyteries.

To re-cap key points:

- Supervisors of PCANZ ministers must be trained in professional supervision; are experienced and competent professionals; and be affiliated with a professional body
- Active PCANZ ministers are not able to be supervisors of other PCANZ ministers
- Retired PCANZ ministers, who are suitably trained in professional supervision and affiliated with a professional body, can supervise other PCANZ ministers if they are not in the same presbytery.

It is acknowledged that these changes will have implications for a number of ministers and supervisors who are ministers themselves.

In response to this PCANZ communication we have revised the Northern Presbytery list of supervisors and added reference to two other supervisor lists to provide more options. Refer attached.

Would you please provide the name and contact details of your supervisor, by completing the attached form, to Natalie (administrator@northpres.org.nz) by the end of February 2025, for our records.

Rod Watts.
